

## Katalyst K1 Concierge: Discover business value of SAP S/4HANA

Katalyst Technologies is offering an SAP S/4HANA assessment customized for wholesale distributors.

Benefit from the experience of a senior SAP expert handholding you through the assessment and business case. We will help you analyze the system impact (technical & functional) and help uncover the business value of moving to SAP S/4HANA.

A Katalyst wholesale distribution industry expert will help you navigate through the newer functionality and build a roadmap to the Intelligent Enterprise.

The Katalyst SAP S/4HANA Discovery system enables you to have hands-on experience with the SAP S/4HANA system functionalities while utilizing your own SAP ECC converted data.

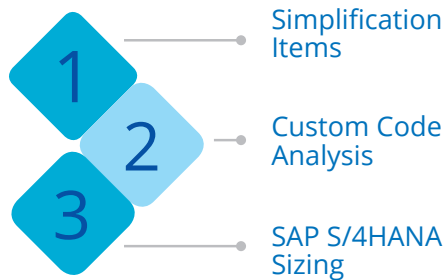

- Discover the value of SAP S/4HANA by running end to end processes with your data!
- Ensure end-user delight by showcasing SAP Fiori transactions
- Leverage learnings from the Discovery system to minimize production downtime and ensure a smooth go-live
