## Benefits of Katalyst K-1 Concierge

### Benefits of K-1 Free Assessment

- Detailed business process and SAP system analysis providing customized recommendations unique to your needs.
- Recommendations on the best deployment options.
- Workshop on changes required for SAP S/4HANA, SAP Licensing and Bill of material.

### Benefits of K-1 Discovery

- Discover the value of SAP S/4HANA by running end to end processes with your data!
- Ensure end-user delight by showcasing SAP Fiori transactions.
- Leverage learnings from the Discovery system to minimize production downtime and ensure a smooth go-live.

## SAP S/4HANA case study

- Katalyst helped a leading consumer products customer with their SAP S/4HANA assessment. The customer is currently on SAP ECC. Additional complexity with multiple custom reports / enhancements and significant EDI related transactions.
- Katalyst deployed a senior SAP expert to handhold the customer through the assessment process. Additionally, Katalyst ran a proprietary tool that provides a detailed level analysis of the impact of moving to SAP S/4HANA.
- The Katalyst expert analyzed the data and provided detailed functional summary, technical analysis, including custom code analysis, impacted interfaces, impacted security objects, system sizing, training impact and expected business value!
- Katalyst also recommended deployment options and a high-level project plan with early start activities.
